Product description:

The Garlando Master Outdoor table tennis is an outdoor model with SMS system, blue playing surface, suitable for intensive recreational use and training.

There **structure** of the playing surface is made of stratified resin with a thickness of mm. 4, reinforced by a 36 mm metal profile with indelible white lines and anti-reflective finish.

The **SMS unlocking system** with knob located under the tops is visible from any position and the bar under the table unlocks both safety devices simultaneously.

The frame is composed of a powder-coated tubular metal structure.

25x25 mm square **legs** with double horizontal connecting bars offer excellent stability. Furthermore, the four double wheels, two fixed and two rotating 360°, make it easy to move even with a folded table.

Net and net permanent supplied with the possibility of regulating the voltage of the network.

Racket holder supplied.
