

Garlando Proline outdoor trampoline

Product features:

Product description:

The **Garlando Proline outdoor trampoline** is the ideal tool for having fun and carrying out physical activity in the open air.

Usable all year round, it offers maximum potential in the summer. Ideal for gardens, beaches, camping or farm holidays, areas equipped for free time, it is suitable for both pure fun and fitness.

Equipped with a 2.2 mm thick steel tube **frame**, galvanized externally and internally anti-rust; seamless **structure**, composed of non-deformable and indestructible "T" elements, for maximum durability and safety.

The **carpet** is made of Permatron polypropylene, waterproof and resistant to ultraviolet. Black colour. The sheet is attached to the springs by a series of "V" hooks covered in 8-row fabric.

Equipped with protective **cushions** in external polyester covering, green colour, internal in high density foam rubber.

It has biconical **springs** for increased resistance, in galvanized steel externally and internally, anti-rust
