Product description:

The **Mistral Garlando Air Hockey table** is perfect for families and adaptable to any environment thanks to its small size.

The **cabinet** is in mm thick MDF. 12 with handrail covered in shockproof and scratchproof material, with rounded corners in black PVC to ensure greater safety. The reinforced legs are equipped with adjustable feet to level perfectly on any surface .

The MDF **play surface** with a thickness of mm. 1.5, in white color with scratch-resistant decorations, it is easy to maintain and clean.

The table is equipped with a machine placed under the playing surface with 24V electrical connection with 220/24V transformer and ON/OFF switch. The recovery of pucks in the goal takes place via two ball collectors placed on the heads, with built-in The cards. Included are 2 knobs and 2 disks.
