

Pair of Olympic high jump stands, IAAF approved

**Product features:**

Material: Aluminum

Height:

**Product description:**

**Pair of aluminum high jump stands, Olympic model, IAAF approved.**

**Top of the range** of the Gana Sport high jump stands series, the **Olympic model** is dedicated to professional athletes.

Made of **anodized aluminum profiles** or with internal reinforcement, they are equipped with a **telescopic structure** that allows adjustment from a minimum height of 115 cm, up to a **maximum of 265 cm**.

The adjustment is carried out at a **micrometric** level, using a winch. **The metric is recessed directly inside the upright** .

The **support base with a "T" profile** is instead made of **painted steel** , and equipped with **adjustable feet** that allow the "levelling" of the tool, thus guaranteeing a stable and solid **support surface** .
