

Pair of mini football goals in steel 150x100 cm

**Product features:**

Material: 2 mm thick steel

Finish: Powder-coated

Door dimensions: MT 1.5x1

**Product description:**

**Pair of mini football and street soccer goals** , made of powder- **coated steel** , with pole diameter 80 mm, **dimensions 150x100(h) cm**

Produced entirely in our factory, with **identical characteristics to classic five-a-side football goals** , **but smaller in size** , these goals have a depth of 40cm and are ideal for 3 vs 3 street soccer matches, or within indoor structures.

The small size allows for **greater development of the player's skills** , which is why they are also chosen by **football clubs for the training of young players and rookies, as well as advanced categories.**

The goals are supplied assembled, and **complete with bolts** for fixing to the playing field, the pair of nets to be purchased separately.
