

Accident prevention protection for Reuther trampoline

**Product features:**

Sponge density: 21 kg/m<sup>3</sup>

Coating: PVC 650gr/m<sup>2</sup> Fireproof- Class 2 fire rating

**Product description:**

**Sponge accident prevention protection for Reuther trampoline.**

Made of **flexible PU foam with a density of 21 kg/m<sup>2</sup>** and covered in **double-layer tear-resistant PVC 650 g/m<sup>2</sup>** and is an essential accessory for **securing the swing area** during artistic gymnastics exercises.

The protection is made with a slight slope to better adapt to the **profile of the platform** , avoiding creating unnecessary steps near the climbing area.

**Removable and washable** , it is the ideal complement **for all jumping areas** where it is necessary to add a higher level of protection, for example on official competition fields but also in school and recreational-sports environments.

**The platform is not included in the price.**
