Product description:

Beach Volleyball Mikasa National Volleyball League Edition (NVL)

This ball for playing beach volleyball takes up the graphics created by Mikasa for the **National Volleyball League, the Pro League** created to spread beach volleyball in the **USA**.

The ball is constructed with **18 synthetic leather panels** , and has the same girth and weight as its competition counterpart.

The particular graphic makes the ball **visible to players and the public, in all conditions**.

The material used and the construction technology make the ball **very stable in the flight phase, and extremely durable**.

It is a ball intended for **amateur play and for training**.
