

## Pair of Transparent Plexiglass Basketball Backboards

### Product features:

Material: Transparent Plexiglass

### Product description:

**Pair of backboards for basketball facilities in transparent plexiglass.**

The scoreboards are made entirely of **transparent plexiglass** , and are available in two different versions, one with **a thickness of 10 mm, and one with a thickness of 15 mm.**

**Both versions** can be produced in the size of 180x120 cm, or in the **official size** established by the current **FIBA regulation, of 180x105 cm.**

The plexiglass basketball backboards are supplied **complete with the relative squaring** , carried out by painting.

The rims, which must be purchased separately, and the backboard support structure are not included.

The scoreboard is supplied without holes, which must be drilled during the installation phase to avoid any inaccuracies.
