

Training obstacle scalable 50-60-76.2 cm

Product features:

Material: Galvanized steel

Finish: Powder-coated

Length:

Height:

Product description:

Training obstacle, scalable 50-60-76.2 cm with **galvanized steel** and painted steel structure, **wooden section**.

This type of obstacle is used by both **athletics and football** clubs to train **coordination and promote muscle development**.

The **structure** is made of galvanized steel, which makes it **resistant to rust** and guarantees its durability over time.

The **wooden stand** , **120 cm** wide, rests on two **sliding uprights in painted steel** , and is equipped with **stops with pins** for height adjustment.
