Product description:

Galvanized steel net tightening winch for Beach Volleyball and Beach Tennis systems

This winch is intended to be mounted on **professional beach volleyball and beach tennis systems** , and is made of **galvanized steel** , to ensure greater resistance to stress due to **exposure to humid and salty environments** .

The net tightening machine **is complete with removable handle and ABS front protection** .

The internal mechanism has a **snap stop** which can be used to **tighten or loosen** the cable that **supports the play net**.
