Product description:

Mesotron Hanhart Tabletop Basketball Stopwatch.

With this **chronometer** , Hanhart has created an extremely **precise and functional** instrument for measuring time that can be used not only in the sports field, but in all sectors where **time measurement** is necessary, such as schools, laboratories and industry.

The **Quartz chronometer** has a design that makes it **easily readable** for **race officials** , thanks also to the large display and the **hands with luminous tips**.

The measurement range is 0-60 seconds + 1/100 minutes.

The **dial with a diameter of 110mm** has a double scale, an internal one 0-100 / 100 minutes and an external one 0-60 seconds + 0-60 minutes.

Operation occurs via a 1.5V AA battery which has an average life of approximately 1-2 years.

Available functions: Start; Stop / Reset
