Product description:

Aluminum trellis volleyball system with "V" base.

Professional volleyball system with **aluminum** pole with an ovoid section of 100/120 mm, powder coated, **double bracing in painted steel** , and **"V" base with wheels**.

The system is equipped with **internal sliders for regulating the height** of the playing net, and with a crank **net tensioner winch**.

To complete the Volleyball facility, it is possible to purchase the specific **Set of made-to-measure safety guards** , essential for making the sports facility safe.

The **anchor bolts for fixing to the floor** are also supplied as standard.
