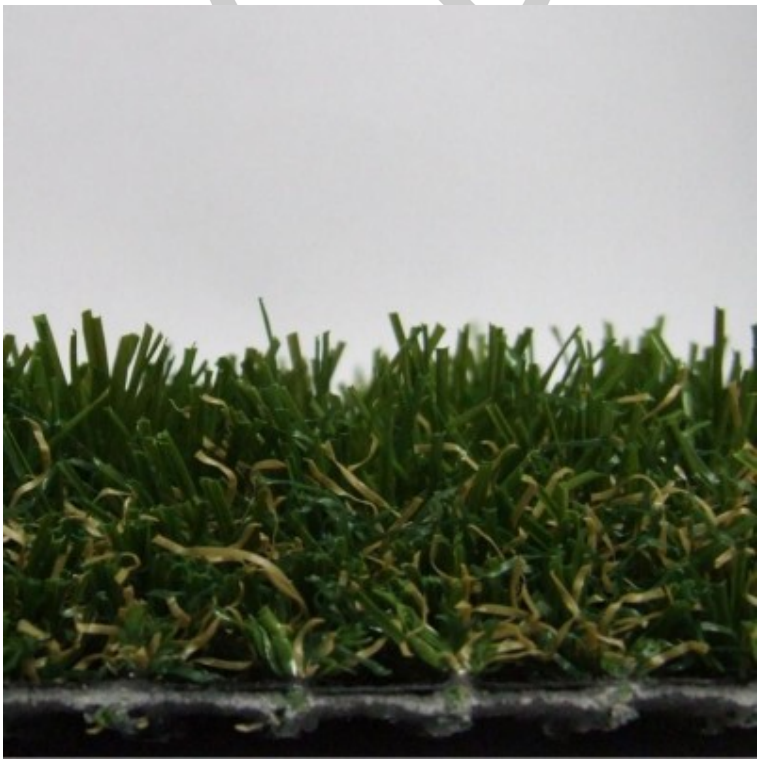
30 mm decorative synthetic grass 50 m² roll - Euro 13.55 per m²



Product features:

Points per m²: 18900
Yarn Thickness: 100-350
Total weight of the covering g/m²: 2042
Yarn structure: Monofilamento sezione C
Height of the turf surface mm: 30

Product description:

Decorative synthetic grass surface. With a thickness of 30 mm, this surface has an excellent aesthetic result and is very pleasant to walk on, giving a feeling of softness when walking. Composed with a spinning system that involves the presence of straight green threads and curly beige threads, it allows you to simulate the effect of a natural turf.

Each roll is 2 m high x 25 m long equal to a coverage of 50 m²
