**Product description:**

Decorative synthetic grass surface. With a soft thickness of 37 mm, this blanket is one of the top models in our range. It has an excellent aesthetic result and is very pleasant to walk on, giving a sensation of softness to the step. Composed with a spinning system that involves the presence of straight green threads of different shades and curly beige threads, it allows the effect of a natural turf to be simulated in an absolutely truthful manner.

Each roll is 2 m high x 25 m long equal to a coverage of 50 m<sup>2</sup>
