Finish: Goffrata ad elevato grip

Accessories:

Product description:

Interlocking tatami, with puzzle cut, dimensions 100x100 cm, height 4 centimetres.

Tatami is a **sports flooring** with **anti-trauma** properties, widely used in **gyms and dojos** where **combat sports** are practiced, such as martial arts, **artistic gymnastics and dance**.

It is an **EVA tile** , with a **non-slip, self-laying embossed** surface, usable on **both sides** , measuring **100x100x4(h) cm**.

Each tile is **completed by 4 finishing elements** which create a **perimeter frame** , delimiting the created area.

The great advantage of the tatami lies in the **simplicity of installation and maintenance** , and in the **high impact absorption properties** which make it the preferred choice of those who **practice martial arts** such as **Judo, Karate, Taekwondo** and more. In fact, it is very often also chosen in places where **artistic gymnastics or dance is practiced**.

The tatami is made of **non-toxic, washable and antibacterial material**.
