

Classical ballet barre in wood

Product features:

Material: Wood

Finish: Natural transparent colour

Diameter: 50 mm

Product description:

Classical dance barre in solid beech wood.

An essential accessory for **teaching the fundamentals of dance** , this barre is **custom-made** and is made of **solid beech wood** , with a **transparent protective finish** , also useful for enhancing the grain of the wood.

The diameter of **50mm** guarantees **solidity** to the tool and excellent support.

The installation can be carried out not only in structures dedicated exclusively to dance, but also at home, becoming a tool for **improving the posture and elasticity** of young dancers and non-dancers.

To accompany the bar, it is possible to purchase **the appropriate supports**.

These are available in three versions, **floor standing with weighted base, wall fixed, and wall adjustable**.
