Product description:

The **Mikasa V320W** is a **technical ball** intended for **professional training**.

The design is inspired by the **V200W racing model** .

like the approved ball, this **V320W** too has an **aerodynamic design with 18 panels** , resulting in **perfect balance** .

This construction **improves ball movement** , giving players **better control**.

Control also guaranteed by the material with which it is made, a mixture of **Microfibrer + PU** , and by the excellent grip, essential for **developing one's skills**.
