

Galvanized steel volleyball referee stand

Product features:

Material: 2 mm thick steel

Finish: Zinc-coating

Accessories:

Height:

Mepa: Disponibile

Product description:

Galvanized steel volleyball referee stand with transport wheels.

A fundamental accessory in volleyball, the platform allows the **match judge** to evaluate the smooth **running of the game from an elevated position**.

This version, **made of hot-dip galvanized steel**, has a large **plywood base with a non-slip finish** positioned 118 cm from the ground, perfect for hosting **the match referee** (the overall height of the structure is 200 cm).

Compared to the painted steel counterpart, **the galvanizing offers greater resistance to rust**, consequently, this volleyball referee stand is **particularly suitable for outdoor use**.

The stage is then equipped with ABS **wheels**, for **easy movement of the structure**, and convenient storage.
