

Safety protection for volleyball referee platform

**Product features:**

Sponge density: 21 kg/m<sup>3</sup>

Coating: PVC 650gr/m<sup>2</sup> Fireproof- Class 2 fire rating

Certifications: UNI-EN 913:2009

Mepa: Disponibile

**Product description:**

**Safety protection for volleyball referee platform.**

Completion of the **volleyball referee platform** , the **safety guard** is **made to measure** , to adapt perfectly to the stage of our production.

This is made entirely of **flexible polyurethane foam** , with a density of 21kg/m<sup>3</sup> and **covered in double-layer, anti-tear and anti-mold PVC** of 650gr/m<sup>2</sup>.

The protection, **UNI-EN 913:2009 tested against accidental impacts for sports use**, is equipped with **perimeter steel eyelets** , to allow easy anchoring to the platform, using elastic cords (not included).

It is an **essential accessory to complete the set up of each volleyball court** , to protect athletes from **injuries** due to accidental impacts.

With a small surcharge it is possible **to customize the protection** with a sponsor, **the logo** or the name of the sports club.
