

Plastic stick length 160 cm

Product features:

Material: PVC

Length:

Diameter: 25 mm

Product description:

PVC stick for gymnastics, length 160 cm, yellow colour.

Sticks are **gymnastic tools** widely used as **training aids**.

In particular, those with **a length of 160 cm** are purchased in combination **with perforated cones** , to create **psychomotor courses, obstacles and slalom courses**.

Suitable for use in **the gym and on synthetic fields** , they are the standard equipment for every athletic trainer.

The diameter of the stick is 25mm , to adapt to cones with holes of the same size.
