

Product features:

Material: PVC

Length:

Diameter: 28 mm

Product description:

Colored PVC stick for gymnastics, length 120 cm.

Sticks are gymnastic tools widely used as training aids.

If purchased in combination with perforated cones, they are perfect for creating psychomotor courses, obstacles, and slalom courses.

Suitable for use in the gym and on synthetic fields, they are the standard equipment for every athletic trainer.

The diameter of the stick is 28mm, to adapt to cones with holes of the same diameter.
