Internal diameter:

Product description:

Pair of rubber sleeves for high jump and pole vault markers.

Made of **rubber** , they have a length of 158mm and an internal diameter of 30mm.

They are mounted at the **ends of the marker poles** used in the **high jump and pole vault**.

These sleeves, in addition to acting as **terminals for the bars** , allow for **correct positioning on the stands for high jumps and pole vaults** .
