**Product description:**

The **Mikasa V355WL** is a **new ball** designed for **youth and school volleyball**.

Its design is **inspired by the V200W competition ball**, which also incorporates the aerodynamic 18-panel construction

This construction **improves ball movement** , giving players **better control**.

Control, also guaranteed by the material with which it is made, **EVA Foam with a Soft Touch finish**, a guarantee of durability and performance.

The ball, in this **"WL" version**, **has a weight of 230-250gr and is perfect for the under 13 categories**
