Product description:

CLX-9000 Stair Climber is a professional product used in gyms and physiotherapy centers for **intensive and dynamic training**.

Thanks to its **combined belt and chain transmission system** it allows **precise speed control** , ranging **from 30 to 172 Steps/m.**

The minimum number of steps on the **Stair Climber CLX 9000** is 3, the height of the first step from the ground is 37 cm. Step size: 55 x 27.8 x 20.5 cm

There is also **a console** made up of **6 Green LED displays**. Thanks to the console it is possible to monitor distance, Step/min, total floors (1 floor = 25 steps), calories, Cal/h, Watts, time, speed, average speed and pulse detected via Hand Pulse sensors.

The multi-purpose handle allows support during training.

Among the **programs available in memory** we find **Warm up, Training, Challenge, Fat burn, Rolling Hills, Interval.**

The effort adjustment takes place on **20 different levels**, adjustable from the display.

Included we can find the fan and the emergency stop button.
