Product description:

TOORX WBX-4000 is the free-loading press for professional use from the Toorx Professional line.

Made of **reinforced steel tubes** with oval section 114x65 mm - thickness 3 mm. The footboard is mounted on **HIGH PERFORMANCE LM35** ball bearings with linear bushing to ensure precise and progressive sliding.

The extremely stable and robust structure is guaranteed for a maximum loadable weight of 350 kg. The particular double epoxy powder painting gives it an anti-scratch treatment.

TOORX PROFESSIONAL PRESS WBX-4000 is made with 65 mm thick cushion covering to ensure maximum comfort.

Among the main features of the **TOORX PROFESSIONAL PRESS WBX-4000** we find the large dimensions of the seat, the push plate and the backrest with adjustable inclination in 3 positions.
