Height:

Product description:

5 meter wooden balance beam with fixed height

Intended for use by gymnasts of all ages , the balance beam is one of the **fundamental tools in artistic gymnastics**.

Indispensable for **improving the athlete's balance** , this **artistic gymnastics** tool is chosen by numerous **sports clubs and schools** for its usefulness, but also by many gyms given that a vast number of exercises can be performed.

The beam is made of beech wood , sanded and finished with a transparent protective varnish,

The walking surface of the beam is, as per the FIG regulation, 10 cm.

For support, we find **two powder-coated steel feet** , with rubberized terminals that bring the beam to a **total height of 50 cm from the ground**.

The beam can be equipped with a **special Sky suede covering**, with a sponge interior, to offer greater comfort to the gymnast.

Attention, item subject to extra transport costs to be estimated depending on the destination
