Product description:

Sky suede covering for 5 meter artistic gymnastics balance beam

Accessory for the 5 meter balance beam , this covering is made of soft suede , a very pleasant to the touch and extremely durable material.

The covering **is made to adhere perfectly to the wood of the beam**, and **offer the gymnast greater comfort and greater grip** during the execution of the exercises, also thanks to a **layer of high-density sponge** which is glued to the internal part, in correspondence of the walking surface.

These are made to adapt to all beams with a regulatory width of 10 cm and a section of 15x15 cm.
