Product description:

TOORX WBX-3400 is the flat bench for professional use from the Toorx Professional line.

Made of **reinforced steel tubes** with oval section 100x50 mm - thickness 3 mm.

The extremely **stable and robust** structure is guaranteed for a **maximum loadable weight of 265 kg** . The particular double epoxy powder painting gives an anti-scratch treatment. The **barbell supports** have **UHMW** (Ultra high Molecular Weight) protection

The WBX-3400 flat bench is made with 65 mm thick cushion covering to ensure maximum comfort.
