Product description:

Hack squat FWX-6200 is the **Toorx brand machine for professional use.**

The structure is made of **reinforced tubular steel** with a flat oval section 50x110 mm with a thickness of 3 mm. **Movement arms in reinforced steel with** circular section \varnothing 89 mm - thickness 3 mm. The particular double epoxy powder painting gives an anti-scratch treatment.

The cushions have a high-density foam filling that adapts to the shape of the body **ensuring support and comfort** .

Platform with 20° inclination to allow intense and effective muscular activity.

The **Power Grade bearing system** ensures precise and progressive movement.

Loadable with Olympic discs. Maximum load kg. 250
