#### Product description:

The **Jk Fitness 527 indoor bike**, better known as a **spin bike**, is a practical product with excellent technical characteristics, ideal for **medium and low intensity workouts**.

The Jk Fitness 527 it is equipped with a **20 kg flywheel** with fixed pinion and **belt transmission** to guarantee a **very fluid and smooth pedaling**.

The **micrometric resistance** is manually adjustable using the appropriate knob which acts on the **pad brake**.

The **soft race saddle** is **ergonomic and micrometrically adjustable** horizontally and vertically on 8 levels (2.5 cm steps) to best adapt to users of all heights. **The handlebar**, like the saddle, **is adjustable** vertically and horizontally.

To always keep your training data under control, it is equipped with a practical **LCD display** that shows time, distance, speed, estimated calories burned and pulse, which can be detected via a special **heart rate monitor**, which can be purchased separately.

The structure is very robust, has a weight of 30 kg and can support a user with a maximum weight of 130 kg.
