

Gluteus Machine Toorx FWX-4600

Product features:

Material: Powder-Coated

Finish: Powder-coated

Maximum User Capacity:

Dimensions Open:

Product weight:

Certifications: CE EN ISO 20957-1/957-4

Warranty: 2 years

Maximum loadable weight:

Product description:

The Toorx FWX 4600 Gluteus Machine is the ideal machine for **training the glutes with involvement of the hamstrings**.

Its structure is made of **reinforced steel** with a flat oval section measuring 50x110 mm and a thickness of 3, with **arms also made of steel**.

The particular double epoxy powder painting gives an anti-scratch treatment.

The Toorx FWX 4600 Gluteus Machine supports loads of 200 kg max.

The cushion is made of **high-density foam** to adapt to the user's body and the **push plate** is **large**, designed for optimal ergonomics.

The Power Grade bearing system makes every slide precise and smooth.
