Product features:

Certifications: World Athletics

Length:

Height:

Product description:

Competition hurdle made of **steel**, **World Athletics approved**, **5 adjustable heights**

The obstacle is **adjustable** to **5 different heights**, 76.2 cm - 83.8 cm - 91.4 cm - 99.1 cm - 106.7 cm and is also equipped at the base with weights **necessary to counterbalance the tool** to prevent it from overturning.

Both adjustments are possible **by acting on special snap buttons** which make repositioning operations extremely quick.

The chosen size is **shown on a graduated scale**, present at the base and on the obstacle upright.

The bracket is white in color and made of PVC.

This type of obstacle is used in **competitions of any level** , national, international and **Olympic**.
