Product description:

Electric compressor for ball inflation, painting and small maintenance, complete with accessories.

The powerful 1.5 horsepower motor generates 8 bars of power, therefore perfect for not only inflating balloons, but also for carrying out small painting jobs or cleaning.

Robust and resistant, the Revolution Air also allows quick and simple connection of the various accessories to make use versatile.

You can always have the same accessories at hand thanks to the special accessory compartment.

Included in the package:

- Inflation gun
- Kit of 3 needles for inflating balls, bicycles and mattresses
- Blowing nozzle
- o 3 meter rubber hose
