

Bar for triceps and abdominals attachable to the Swedish wall bar

Product features:

Material: 1.5mm thick tubular steel

Finish: Powder-coated

Product description:

The **triceps** and **abdominal bar** attaches to the **Swedish wall bar** . This very useful **tool** allows a **complete workout** for **triceps, pectorals** and even **abdominals** .

The structure is extremely solid and stable thanks to the double horizontal bar. Entirely made of steel, the support bars have a section of 35x20 mm. To allow for more comfortable training, the supports are made of high-density polyurethane.

Pull-up bar dimensions: 68(h)x 67(l)x 68(d) cm

Made in Italy product, entirely made in our factories
