Product description:

Modular squared mirror 150x100 cm transportable on wheels.

An essential accessory **for postural analysis** , this mirror finds its application not only within **medical and physiotherapy practices** , but also in **dance schools** where, especially in its version without squaring, it allows the dancer to **control every movement and improve the performance** .

The mirror, **measuring 150x100 cm** , has a solid wood frame, can be **adjusted** as needed, and is mounted on a powder-coated steel structure, **equipped with wheels**.

The mirror is available in two different versions:

- 150x100 cm Squared - Art.GS0135/Q
- 150x100 cm Without Grid - Art.GS0135
