

## **Product features:**

Material: Sponge Diameter: 70 mm

## **Product description:**

Set of 3 soft anti-trauma sponge balls with a diameter of 7 cm

Made entirely of soft anti-trauma sponge, particularly suitable for children aged 1 year and above.

These balls are also used to support physiotherapy and proprioception exercises. Also perfect for playing at home, thanks to the soft material they allow the child to play in total safety.

Mondo sponge balls stimulate movement and dexterity in little ones.
