

Tri Grip Olympic disc in Diamond rubberized cast iron with flared stainless steel bushing

**Product features:**

Material: Rubberized cast iron

Warranty: 2 years

Hole diameter: 50 mm

**Product description:**

Used in all gyms around the world, **Trip-Grip Olympic plates** are enjoying great success among the most passionate bodybuilders.

The reason for this success is in the practicality of these discs and their **multiple uses** .

In fact, the **three handles** , in addition to allowing easier movement, significantly improve their grip, expanding their sphere of use to the most varied exercises such as **Squats** and **Abs** .

This professional model from the **Diamond line** is characterized by the **great quality of the rubber** used and the central **flared stainless steel bushing** which facilitates the insertion of the discs and at the same time protects them from wear.

These **triple grip** discs are now also used at home, by fitness and weightlifting enthusiasts who decide to purchase a **professional and guaranteed product** .
