

Abdominal bench attachable to the Swedish backrest

**Product features:**

Material: 1.5mm thick tubular steel

Sponge density: 21 kg/m<sup>3</sup>

Finish: Powder-coated

**Product description:**

The **abdominal bench** , which can be attached to the Swedish backrest, is a very useful accessory that allows you to expand the range of exercises to be performed.

**The inclination** can vary based on the choice of attachment peg, so you can perform different exercises during training.

The supporting structure is made of tubular steel with a 3.5x3.5 cm square section. On the steel base we find an MDF wooden support which varies from 16mm to 19mm in thickness. **The 6 cm sponge padding** and **the eco-leather covering** allow for greater comfort during training.

**The abdominal bench** is also complete with **a footrest adjustable to 4 positions** and **wheels for transport**.

Color may vary based on stock availability.

**Bench dimensions: 167(h)x37(d) cm**

**Made in Italy product, entirely made in our factories**
