Product description:

The **Toorx collection** is enriched with a new category of tools, called "**all in one**" as **they contain the functions of at least three distinct machines in a single station** , namely:

- **Dual Pulley**
- **Smith machine**
- **Functional rack with pylon for pull-ups and dip station**

Equipped as standard with numerous other accessories and attachments and can be equipped with further optional attachments, guaranteeing space saving and unparalleled flexibility and completeness of use.

As well as a disc loading station (ASX 2000) and two stations with a 2 x 90 kg weight stack. (ASX 4000 and ASX 5000), the range includes the amazing ASX 3000, which can be called "4 in 1" as it includes the functions of:

- **Functional rack with traction pylon**
- **Smith machine**
- **Lat machine & low row**

Dual pulley (pulleys not adjustable in height)

The **ASX-4000 multifunction rack** has an extremely robust and resistant structure, made of steel with a rectangular section 50x70 mm - thickness 2.5 mm/2 mm and a square section 50x50 mm - thickness 2 mm. This multifunctional machine allows for professional and complete training as it is equipped with:

2x90 kg **steel weight pack** with protective casing.

Adjustable PULLEY 264x1839 mm **on 22 levels** center distance 75 mm

J-CUP/SAFETY SPOTTER ARMS Extra strong 5 mm thick with UHMW (Ultra High Molecular Weight) protection. Adjustable 314-1832 mm on 31 levels, 50 mm center distance.

ROCKER 1936 mm, sliding on ball bearings, 2 safety devices with adjustable hook, adjustable to 12 positions (622 - 1832 mm), pitch 110 mm.
