

Olympic starting block Mark I model World Athletics approved

Product features:

Material: Aluminum

Certifications: World Athletics

Product description:

World Athletics approved Mark I Olympic starting block

Starting block made of **aluminum with 75 mm central rail** with grooves and **centimeter display** of the position of the two blocks.

The **footrests** are made of heavy aluminum, and their **inclination is adjustable on multiple levels**. The surface is covered with a thick layer of **non-slip rubber**.

Thanks to the thick grooves, the blocks are fitted perfectly and **guarantee optimal anchoring and stability** .

The central structure is equipped with **plates perforated at the front and rear** for possible anchoring to the ground (pegs included)

Assembly of the block is quick and extremely simple
