

Replacement PVC stand for regulatory competition obstacle

Product features:

Material: PVC

Length:

Thickness: 18 mm

Height:

Product description:

Replacement PVC stand for racing obstacle.

Made entirely of **splinter-proof PVC** , and in compliance with the **technical regulations of the Italian Athletics Federation** , this stand has a **length of 120 cm** , a height of 7 and a thickness of 18mm.

As per the regulations , it is finished on both sides with a **black paint** , placed at a minimum distance of 22.5 cm from the end.

The bar is then **rounded at the top**, to avoid accidental injuries.

These dimensions make it **compatible** with most competition hurdles on the market
