Product description:

The Gradim GL330 swing is made on a **double-lamellar impregnated pine wood structure** , section cm. 9x9 . The horizontal wooden beam is also made of laminated pine but with a section of cm. 9x15.

The swing features a **fiberglass slide cm. 400 with two safety bars and a non-slip galvanized metal ladder. It also has a tire supported by narrow mesh galvanized chains** . The movement takes place on self-lubricating Teflon bushings.

The structure is designed for **fixing to the ground using metal brackets** to be cemented into the foundation.

Characteristics:

Drop height (HIC): cm. 170

TUV approved for " public use" according to EN 1176:2017 standards
