Diameter:

Casting Ball Weight: 6 Kg

Product description:

6 kg soft shot put ball covered in rubber

Designed for **indoor circuits** and **for training** , this **6 kg** shot put ball is covered with a **layer of soft rubber, which improves grip.**

The shot put (also improperly called shot put because it is considered within the throwing disciplines) is **both a male and female athletics specialty** , in which the athlete tries to throw a metal sphere as far as possible.

Made of cast iron and covered in rubber, this model has a **diameter of 140 mm and a weight of 6 kg.**
