Product description:

Diamond PRD-P2 Professional Adjustable Bench

The **PRD-P2** is a **professional adjustable bench** , with unique solidity and robustness characteristics of its kind.

The frame is made **with 75x75mm tubulars** , capable of supporting **350 kg**, therefore configuring itself as a tool intended for **high-level bodybuilders** .

Comfort of use is guaranteed by the high-density cushions and the **backrest and seat which can be adjusted to multiple positions**.

The bench is then easily transportable thanks to the **supplied wheels**.
