

Super Santos soccer ball

Product features:

Ball size: 5

Material: Eraser

Diameter:

Product description:

Super Santos soccer ball

Now legendary, the **Super Santos** is the ball that every child started playing with.

The unmistakable orange color, with black stripes , is inspired by Brazil's victory at the 1962 **world championships** .

Made of PVC, and with a **diameter of 23 cm** (depending on the inflation pressure), it is characterized by the particular **boomerang effect** that it acquires if kicked from inside or outside.

Today, after more than 40 years, it remains an icon, and is widely used in **schools** as well as in **suburban playgrounds**.
