

Steel measuring tape with 50 meter handle

Product features:

Material: ABS and Steel

Length:

Product description:

Metric wheel with steel tape and rubberized ABS handle, 50 meters long.

In athletics , it represents an indispensable accessory for **competition judges**.

This tool allows the **measurement of distance in throwing competitions** (shot, javelin, discus and hammer). The measuring tape has a body **made of ABS and steel** , and is characterized by a comfortable rubberized ABS handle.

The **measuring tape is entirely made of steel** and can be rewound using a **foldable lever**.

The **precision of the measurement** is guaranteed by the **printed millimetric scale**
