

Tachometer with bronze bell

Product features:

Material: 1.5mm thick tubular steel

Finish: Powder-coated

Accessories:

Product description:

Lap counter with Bronze Bell for athletics

Tachometer **complete with bronze bell and two "Meteor" type lap markers** with **powder-coated tubular steel structure** and integrated quadrangular base.

The lap counter is **positioned on the track** and has the purpose of **indicating to the athletes the number of laps** remaining until the completion of the race. **The last lap** is then signaled by the characteristic "Gong" of the bronze bell.
