Product description:

The LPX 5000 is the new **Toorx 2-IN-1 leg press / calf raise** machine. This innovative machine completes Toorx's offer for training the lower limbs, guaranteeing a complete and easy-to-perform exercise, thanks also to the access and very comfortable training position, with extremely small floor space, to satisfy the needs of personal trainers and, in general, of all environments in which the need to optimize spaces is a priority.

The stable and robust structure is made of reinforced steel with rectangular section 70x50x2.5 mm, 40x80x2.5 mm, 50x80x2.5 mm and round $\varnothing 50 \times 3$ mm.

Backrest inclination on 3 levels, footrest inclination on 3 levels, calf position height on 3 levels. 4 safety lock positions, 3 start/stop positions.

The **leg press-calf raise** is supplied **with non-slip rubber feet, $\varnothing 50$ mm and 25 mm disc loading system, 2 $\varnothing 25$ spring clip spring disc holders, 2 $\varnothing 49$ mm spring disc holders**

Maximum user structure weight and weight load: 430 kg

Maximum user weight: 150 kg
