Product description:

The **Toorx collection** is enriched with a new category of tools, called "**all in one**" as **they contain the functions of at least three distinct machines in a single station** , namely:

- **Dual Pulley**
- **Smith machine**
- **Racks**

Equipped as standard with numerous other accessories and attachments and can be equipped with further optional attachments, guaranteeing space saving and unparalleled flexibility and completeness of use.

ASX 6000 is the new top of the range, being equipped with 18 aluminum pulleys for unparalleled smoothness and fluidity of operation. Not only that: thanks to the appropriate accessories, it also transforms into a belt squat, a T bar machine, or a leg press, ensuring excellent versatility.
