

Volleyball Mikasa VS123WL Soft Touch 230-250gr

Product features:

Ball size: 5

Material: EVE

Product weight:

Circumference:

Product description:

The **Mikasa VS123WL** is a ball designed for school use.

With its **18-panel Eva Laminate construction** , it is totally **seamless**.

The weight, between 230 and 250 grams, is slightly lower than that foreseen by the FIVB for international competitions while the circumference remains the regulation one.

The Mikasa VS123WL is a perfect ball for introductory discipline, training and school use.
